-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☐ Responsive to communication(s) filed on 28 March 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 14-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Kotzur et al (5,678,778).

Kotzur shows a method of transferring a wire from a first mandrel to a second mandrel of a dual mandrel wire winding machine for continuously winding, comprising:

directing wire to the first mandrel 44 such that the wire extend from the first mandrel (Fig. 8);

transferring the wire to the second mandrel 46 with an extendable (Fig. 8) and retractable (Fig. 10) transfer arm 110; and

transferring the wire to the second mandrel 46 by extending and retracting the transfer arm such that, while transferring the wire to the second mandrel 46, the transfer arm 110 is operative to engage the wire segment extending from said first mandrel 44 and to move at a portion of the wire segment to a position adjacent the second mandrel (Fig. 10), where the wire is secured to said second mandrel 46.

In regards to claim 15, Kotzur shows the method including extending the transfer (Fig. 8) arm retracting the transfer (Fig. 10) arm engaging the wire segment extending from the first mandrel 44, and moving the transfer arm to a position adjacent said second mandrel 46, where

Art Unit: 3654

the wire is secured to the second mandrel, and after engaging the wire segment, rotating the transfer arm towards the second mandrel.

***Allowable Subject Matter***

Claims 1-13, 18-31 and 33-36 allowed.

Claims 16 and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Amendment***

Applicant's arguments filed on 29 March 2004 have been fully considered but are not persuasive with respect to claims 14 and 15.

The extending and retracting positions of the transfer arms are being interpreted as the pivoting motions of Kotzur, Figures 8-10, that occur during the course of moving the wire.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 3654

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
